Backend: Node.js, Express.js, REST APIs, Java (Core Java, OOP, Collections)

Database: MongoDB, MySQL (learning)

Tools: Git, GitHub, VS Code, Figma, Canva, WordPress, Vercel

Other: SEO, Local SEO, JSON-LD Schema, PWA Development, Social Media Management

EXPERIENCE

Founder & Web Developer

May 2026 – Present

Safr Labs — safrlabs.in

- Founded and operate a premium website design studio delivering custom HTML/CSS/JS and Next.js websites for businesses in Tamil Nadu.
- Completed two production client projects — AK Construction (corporate portfolio) and Smart Mobiles (bilingual PWA) - both live and in active use.
- Manage end-to-end project delivery: discovery, design, development, deployment, and 30-day post-launch support.
- Built agency website in Next.js achieving Lighthouse 100 performance score across all metrics.

Project Trainee

Oct 2025 (15 days)

Zoho Corporation, Surandai (On-site)

- Completed intensive 15-day on-site program at Zoho Corporation with focus on Core Java, OOP principles, and structured development workflows.
- Built and presented EcoRoute — an AI-powered eco-friendly route planner comparing paths by real-time CO₂ emission data — at Zoho's Rural Tech Uplift 2025 corporate event.
- Gained direct exposure to Zoho's product development culture and enterprise engineering standards.

PROJECTS

Safr Labs — Premium Website Design Studio

May 2026

safrlabs.in

Built and run a full-service premium website design studio. Next.js architecture, Lighthouse 100 performance, bilingual Tamil/English content, halal-first ethical positioning. Serving real clients across Tamil Nadu.

Stack: Next.js, Vercel, SEO, JSON-LD Schema

AK Construction — Corporate Portfolio Website

May 2026

akconstruction123.vercel.app

Client project. Corporate portfolio website for a Tamil Nadu construction business. Mobile-first design, WebP image optimisation, Lighthouse 100 speed scores. Client reported improved online visibility and discoverability within weeks of launch.

Stack: HTML, CSS, JavaScript, SEO, WebP

Phoenix Photography Studio — Concept

2026

phoenix-photography.vercel.app

Concept project for a Thanjavur photography studio. Custom vanilla JS touch-swipe lightbox, before/after image comparison slider, WebP preloading, and JSON-LD local SEO schema. Zero frameworks — pure HTML/CSS/JS.

Stack: HTML, CSS, Vanilla JavaScript, JSON-LD

Zayd Architects — Concept

2026

zayd-architects.vercel.app

Concept project for a premium architecture studio. Editorial layout, custom typography system, mobile-first responsive grid, and performance-optimised image delivery.

Stack: HTML, CSS, JavaScript
